

At the 2009 Alfa National Rally, in Bakersfield, it was decided to end the National Board of Directors. Since Alfa Leisure closed its doors the main purpose of the NBD is no longer needed and no more money will be coming in from Alfa Leisure. An oversight committee was formed with one member from each chapter, the past national rally master and the current rally master. Currently I am representing the Mavericks and past rally master. At the Pismo outing we will need to elect or appoint someone from the Mavericks to be on that committee with me. To keep cost down the new committee will meet during the national rally. No days before or after the rally no dinners or mid year meetings.

Since there's approximately \$11,000 in the National Board account a committee was need to control the money. The oversight committee is really going to be more like a bank and will advance monies to the next rally to get things started. It will be pay if you go and there will no charge to chapters. The Mavericks did very well this year thanks to the Bakersfield RV Resort keeping the cost down. I will be returning some money to the new oversight committee by the end of the month.

Emily and I are currently in San Diego with our new grandson, Noah Burr Gamboa, and his 3 year old sister. We will be here for the next eight days. The rest was really needed.

I would like to thank all the Mavericks again for all the help they gave me to put on the 2009 National Rally.

Arnie and Emily Burr
